

RISE REVIEW

APRIL 2024

Monthly Overview

Key Turnover

Pictured is Project Manager Eddie Ward, doing a key turnover and walk-through with happy homeowners. **They are extremely happy to be back in their home.** This was a 45-day build in Alabama! Great work team!

45
DAYS

Key Hand Off

The DSW Coastal Bend team is on fire! We are so grateful to have welcomed these extremely deserving families back into their homes!

The Last Coastal Bend Resilient Steel Frame House

This month, we are planning to finish the last resilient steel home in the Coastal Bend area in Beeville, Texas. Our Rockport office started this new program back in June of 2022 and will have since **completed 59 steel frame houses**. Although, this new program has brought a lot of excitement and high expectations, it certainly has not come without its challenges.

Our team has grown so much since the first steel house went up, but most importantly, **this contract has allowed us the opportunity to change the lives of many homeowners who were in desperate need of a new home.** It has been a challenging, exciting, and rewarding experience to have taken on the resilient program and we look forward to new challenges and learning opportunities as we strive to rebuild our local communities.
