To Whom It May Concern:

It is with great honor that I write this letter of recommendation for DSW Homes. DSW is a proven leader in residential construction in Southeast Texas. They build a quality, first class product that will last for many decades to come. Currently, they are building single family homes for the City of Port Arthur and have been awarded a bid by the Housing Authority to build a minimum of eight additional single family units under the Neighborhood Stabilization Program.

I have had multiple interactions with DSW and have found their organization to be well organized, efficient, cost conscious, dependable, reliable, courteous and timely. They have been very accommodating from the design and selection process to the construction and closing preparation. DSW is always prepared, ready and able to accomplish any task at hand. We look forward to a long lasting relationship with this company. DSW will be a strong attribute to any project and I highly recommend them for all of your construction needs.

Please do not hesitate to contact me if you have any additional questions. I may be reached at 409.984.2637 (office) or 409.540.0940 (mobile).

Sincerely,
City of Port Arthur Housing Authority

Denise Cole
Program Manager
