DSW Homes/DSW Rita Rehab
1021 61st Street, Bldg B
Suite 200
Galveston, Texas 77551

To Whom It May Concern:

DSW Homes served as a construction subcontractor to Shaw Environmental & Infrastructure, Inc. (Shaw) in the rehabilitation of more than 135 homes under the Texas Homeowners Assistance Program and Sabine Pass Restoration Program (THAP/SPRP) as part of the Hurricane Rita federally funded CDBG Disaster Recovery Programs managed by the State of Texas. Also, DSW was an approved construction contractor for more than 265 new houses built under these programs and their work was routinely observed and inspected by Shaw. DSW met the procurement requirements of such federal programs, their work was consistently of high quality, and their assignments were completed in a timely manner. In addition, DSW routinely demonstrated outstanding customer service with the applicants they served.

Please feel free to contact me if you have any questions regarding DSW and their performance on these programs.

Sincerely,

SHAW ENVIRONMENTAL & INFRASTRUCTURE, INC.

John Moody
Client Program Manager
