RE: DSW Homes Reference Letter

To Whom It May Concern:

DSW Homes has been an active contractor in both the Rita and Ike federally funded CDBG Disaster Recovery Program. They have constructed or rehabilitated more than one thousand homes in a 36 month period since joining the eligible contractor list.

The work they have done for the program has been of the highest quality, speed, and home owner satisfaction. They continue to be assigned duties in the Disaster Recovery Program because of this outstanding commitment to all three.

They are familiar with the necessary requirements to operate within a federal program and meet federal requirements and timelines in the State of Texas. Please feel free to contact me at 512-463-5053 or at gary.hagood@glo.texas.gov if you have any questions.

Sincerely,

Gary Hagood
Deputy Commissioner, Financial Management
